

st **African**
Popular Urban Transport
Paratransit
Fair

20 - 21 October 2026
ABIDJAN

**2 days to showcase your solutions for the
modernisation and professionalisation of
African popular urban transport**

Side event of the International Conference on Sustainable
Mobility and Climate 2026 #CIMDC2026
Ivory Hotel, Abidjan

Why a paratransit fair?

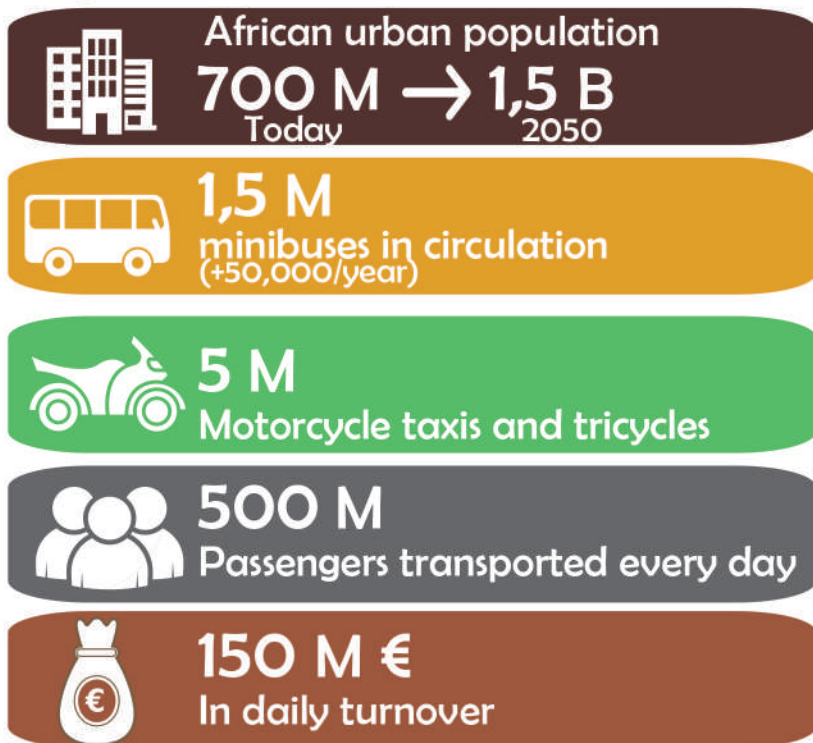

Paratransit (minibuses, shared taxis, motorcycles and tricycles) is the backbone of urban mobility in Africa.

It carries **more than 70% of motorised passengers every day**. However, it remains insufficiently structured and modernised.

The African Paratransit Fair aims to:

Promote modernisation and professionalisation
Share concrete solutions
Give visibility and legitimacy to the sector

Key figures:

M: Million - B: Billion

A unique fair for:

Showcasing concrete and tailored solutions

Creating synergies between private sector, transport operators, decision-makers, manufacturers, local authorities, researchers and funders

A side event of the International Conference on Sustainable Mobility and Climate 2026 :

1,500 participants: decision-makers, development agencies, operators, local authorities, private sector, etc.

40 sessions

Solutions highlighted:

Modernisation of rolling stock (mini and midi buses, motorcycles and tricycles, etc.)

Road safety and better working conditions

Financing, insurance and mutual insurance

Digital innovations: ticketing, geolocation, platforms

Energy transition: electric vehicles, improved fuels ...

Expected participants:

Transport operators and professional associations

Manufacturers, start-ups and solution providers

Public authorities, local authorities and funders

Codatu : who are we?

Codatu is an international, neutral and independent NGO founded in 1980 in Dakar. Our purpose is to **promote sustainable urban mobility in cities in the Global South** (Africa, Asia, Latin America).

To achieve its mission, Codatu contributes to city-to-city cooperation, knowledge exchanges (scientific, technical, economic, etc.), trainings, publications, international conferences and pilot projects.

As an association bringing together all urban mobility stakeholders, Codatu will ensure **a balance between the various components of the 'solutions' presented, their quality, and their adaptability to Africa.**

Our approach:

Promoting public transport / paratransit as a key element in a dual system

Promoting solutions tailored to African realities

Creating a dynamic of regular trade fairs on the continent

Join us in Abidjan to co-create the future of paratransit in Africa!
