# Our feedback at the dawn of being young professionals

# Codatu 2015 was:

Multidisciplinarity

+ High profile participants

+ Wide knowledge sharing

**= An outstanding conference**

# An overall outstanding level

- A good step forward COP 21
- A very effective organisation: thanks to the team who made it possible !

# Raising the bar even higher

**Next CODATU  
Conference**

# Raising the bar even higher

- The proposals and recommendations were of a very high level.
  - However a more nuanced approach may be needed for addressing the specificities of developing countries.
- The initiative of a Master program in Lome is an excellent opportunity to involve more young talents of developing countries.

# Raising the bar even higher

- The plenary sessions are very enriching: more time could be allotted to questions and discussions.
- Last but not least: encourage the participation of women.

Merci

Thank you

Teşekkür ederim
